	2018/19
% of pupils achieving Grade 4 or above in English	58
% of pupils achieving Grade 4 or above in Mathematics	42
Support for 2019/20	
<p>The Pupil Premium Grant is planned to be used, as last year, to support key interventions and support strategies in School such as Maths and Literacy interventions, child advocacy, support workshops, mentoring, curriculum support, individual support programmes, equipment and educational activities. We will also continue to use the funding to encourage students to attend important curriculum related school visits and in certain circumstances assistance with meals or transport.</p>	
Curriculum and Well Being Support for 2019/2020	
<p>We will continue to offer one to one academic support on a priority basis to work towards students reaching their identified target. In Maths and English additional lessons are timetabled to provide focussed support. We also continue to plan for a mentoring programme for both academic and behaviour support together with workshops in reading and spelling to assist in providing strategies for achieving in school. An annual plan of revision workshops, seminars and master classes specifically designed to ensure students achieve their potential in their examinations will be arranged both during the year and at key examination times.</p>
